Full Spectrum Resistance to Full Spectrum Dominance

Keep Space for Peace

In another historic moment, we must decide: Shall the people of earth submit to full corporate surveillance and domination of every aspect of our lives? We say no! Military activities are also surveillance and programs like NSA and NRO, *Eyes in the Sky* can target every place on the planet as the lines from programs erode. While the US and NATO exclude Russia, China and other nations, *Eyes in the Sky*

enable the functioning of "remote defense" and other provocative "forward deployed" military operations. We of The Global Network, working with friends in local and international movements, stand in opposition to "full spectrum dominance" by joining worldwide "full spectrum resistance" with our bands, posters, stickers and generators to see them from airports overhead.

International Week of Protest
to Stop the Militarization of Space | October 4-11, 2014

Socialist Party USA Points of Agreement

The following points represent the key ideas of agreement of the Socialist Party USA.

- 1) The Socialist Party is a democratic socialist organization. We see socialism as a new social and economic order in which workers and consumers control production and community residents control their neighborhoods, homes and school and the production of society is used for the benefit of all humanity, not the private profit of a few..
- 2) We see the working class as in a key and central position to fight back against the ruling class and its power. The working class is the major force worldwide that can lead the way to a socialist future – to a real radical democracy from below.
- 3) We stand in opposition to all forms of oppression including but not limited to racism, sexism and homophobia.
- 4) We are a “multi-tendency” organization. We orient ourselves around our principles and develop a common program, but our members have various underlying philosophies and views of the world. Therefore we reject vanguardism and democratic centralism.
- 5) We advocate for independent political action outside the Democratic and Republican parties.
- 6) Our tactics in the struggle for radical democratic change reflects our ultimate goal of a society founded on principles of egalitarian, non-exploitative and non-violent relations among all people and between all peoples.
